MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1. Industry structure and developments

In the previous year unfortunately as a result of the impact of El Nino, the monsoons did not fare well in India, but in anticipation of the resulting drought the Central Government took pre-emptive measures to ensure that the impact of poor monsoon was mitigated. The food grain situation was handled very well. And the RBI, being very proactive in responding to global currency challenges, it managed to float a range of instruments, and made it attractive for the global investor to buy into the Indian Debt market, and thereby the Indian Rupee appreciated. The near-term interest rate trend is looking downwards.

The Indian economy was also helped by the crude oil prices hitting historical lows, this coupled with an appreciating rupee helped to a large extent in keeping the growth engine chugging at +7%. The Government in turn also has been focussed on investing in the infrastructure sector, and due emphasis has been made on building roads and highways at a record pace.

Also there is an increased emphasis on Healthcare, and Education with focus on the girl child, this is bound to have a favourable impact on the demand for Baby products in the future, which will in due course of time be the mainstay of our business.

2. Opportunities and threats

It is well known that the birth rate and increasing affluence of the youth in India bodes well for baby care products, and coupled with education, and healthcare the growth of the baby care segment is going to be even higher in the coming years. Your company is engaged in stabilizing the production of its existing range of baby care products, and in due course hoping to convince its business partners to examine the feasibility of increasing the product range and volumes from our facilities in Banganagar.

However the main threat as we see it is from cheaper imports from China.

Your company is keeping abreast of all such developments and threats, and taking action to counter these threats effectively.

3. Segment – wise or product-wise performance

Since your company has just about commissioned the plant for producing baby feeders and nipples in this financial year the facility is still to come up to full production.

The treasury operations are being managed in an efficient manner with primary emphasis of capital protection and stable returns.

Given the fact that globally commodities have sunk to historical lows, your company has begun trading in bullion in a limited way, and has made reasonable returns from such investments.

4. Outlook

The business outlook is secure, especially in terms of profitability, and having de-risked the business from extreme volatility, and invested in a high growth segment such as baby care the future outlook is good. But expansion of the business will take time unless and until we stabilize the business model, and establish a full year of smooth functioning of the production facilities. On the treasury side, looking at the trend of lower interest rate regime, returns may drop to some extent in near future.

5. Risks and concerns

Despite the opportunities that are evidently present as we have described above there remains risks, but the main concern is from two areas. We are all aware that getting a better rate of return even on debt instruments is becoming increasingly difficult, and there is a need to identify corporates, and instruments that are relatively safe in relation to the huge flux taking place in the global business environment. Companies that were known to be the best in the world are being rendered outmoded due to overnight technological changes. Also commodity dynamics are causing instant losses to established companies almost overnight.

Your management is on constant vigil to ensure that not only the rate of return is acceptable, but also that the investment vehicle is safe and stable.

We are also of the view that in the coming years the rate of return on fixed investment instruments will fall and more importantly we need to hedge our company from losing any capital, and not just looking at rate of return.

6. Internal control systems and their adequacy

Your company has deployed effective mechanisms to ensure that the business controls are effective, and we are taking the help of multiple professionals and agencies to advise us on various aspects of the business from time to time.

7. Discussion on financial performance with respect to operational performance

Since the baby care production facilities have only been recently commissioned it would not be fair to make an appreciation of this business in terms of Turnover, as well as returns, however what is more important to note is that despite the collapse of the commodities space, as well as financial markets in India and the world your company has delivered record profits.

8. Material developments in Human Resources / Industrial Relations front, including number of people employed

Your company has at all times received full cooperation and help from its workers and staff, and would like to place on record the appreciation of the management for their inputs in adapting the business from Vanaspati and edible oils to a completely new line of products and investment model. There were 40 permanent employees on the rolls of Company as on 31st March, 2016.

‘Annexure B’ referred to in our report of even date

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Rasoi Limited (“the Company”) as at March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk

that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

'Annexure A' referred to in our report of even date

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Rasoi Limited (herein referred to as "the Company") and its associate company as at 31st March, 2016 in conjunction with our audit of the Consolidated Financial Statements of the Company and its associate for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Company and its associate company incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company and its associate company incorporated in India

considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable consolidated financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company and its associate company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company and its associate's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail,

accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company and its associate company incorporated in India has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company and its associate considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.
